Memorandum

To	Consultant Candidate	Date	2023
From	ACIL Allen Human Resources	Ref	0000
Subject	Qualitative and Quantitative test		

Assessment of Quantitative and Qualitative Analytical Skills

This assessment is designed to demonstrate your ability to manipulate, analyse and provide written insights on a data set.

1. Please pick a topic of interest to you and a research question relating to that area.
2. Analyse the issue using publicly available data with two different statistical methods.
3. Clearly explain the problem, the methods you used, and the main findings.
4. Compare the results and comment on the appropriateness of each method.

Send to a.moreno@acilallen.com.au. The following files:

- Analysis files. Including the raw data set and your analysis
- The written overview of your findings and comparison
- Please include your name in the files

The analysis should take you around 2.5 to 3 hours to complete.

Alexandra Moreno

HR Advisor
